furniture, poland, romania, bucharest

Our products are made solely out of the best materials: solid and durable beech or oak wood and best quality fabrics sourced internationally. As a result, we receive the outstanding furniture: chairs, armchairs, sofas, accent chairs and tables.

When creating our models, we are inspired and motivated by the relationship between the product and the space where it belongs to.

By choosing our furniture, you gain something more than just chair or a sofa. You receive a handmade product. From the first concept, throughout the production process, up until the final effect - there are lots of people that put their heart in it.

During the creation of the furniture the man is needed. Only a man can perfectly appoint each element, fit them together to create a complete piece.

The noble material such as wood requires exceptional precision, engagement and experience.

Style Home is all about the values that we believe in.
